## Grafton Technologies, Inc. CPNI Operating Procedures

Grafton Technologies, Inc. (GTI) has provided training to existing employees and will provide training to all new employees on the proper use and disclosure of (CPNI). Records of the training material and documentation of the attendance is kept on file. Any employee's noncompliance of GTI's CPNI policies will be reported and appropriate disciplinary steps taken.

Notification letters were mailed to address of record to all customers explaining their rights regarding CPNI. Customers were asked to contact office to establish security information to protect their data. Customers that didn't respond to mailing were then contacted again via a letter to address of record with randomly selected security information for their account. Customers are allowed to change security information after verification of customer. When customer's CPNI's data is requested either by phone or in person customer, employees verify by procedures noted in their CPNI training manual. After a change or requested of CPNI data as occurred, the customer is then notified by mailed to address of record a notification of change, and then a log is made in billing system. GTI's billing company is also compliant with the CPNI regulations.

In the past year, no action taken against data brokers and no customer complaints received concerning unauthorized release of CPNI.
